

# HPGW - WILDLANDS

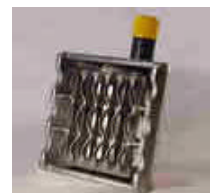

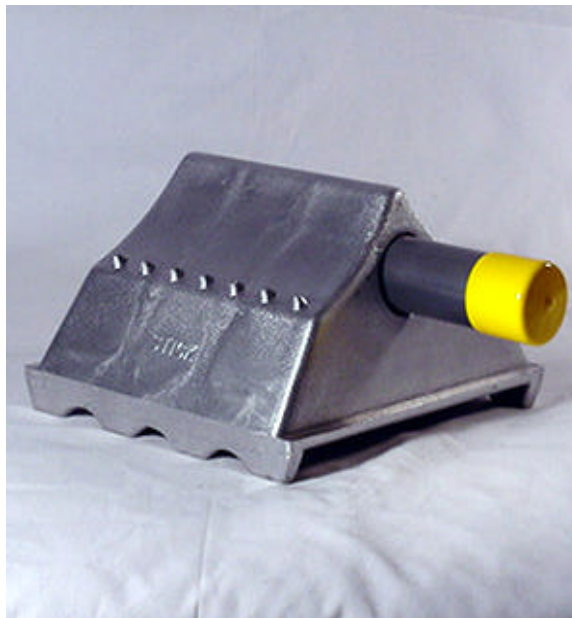

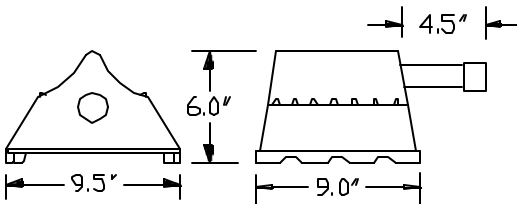

*Enhanced Soil Compression Resistance*

**HPG WILDLANDS GripSpan base, non-sink.** Solid base resists soil compression.

**HPG WILDLANDS easy, safe deployment.** Features a large radius PVC (S80) grab pole that fits well in your hand, but also keeps hands away from the tire. High visibility cap is always within view of the operator.

**HPGA STICK grip-faced to promote adhesion.** Carefully designed to create a vertical line of force to distribute weight over a large surface area. This helps to both diminish soil compression produced and retain high coefficients of friction ratio.

- Aluminum, Plastic Grab Pole
- 6"H x 9"W x 9.5"H
- 5.5 lbs.

Solid base resists soil compression.

## MATERIAL SAFETY DATA SHEET

<b>MED. to LG. TIRES</b>	Wildland fire apparatus. Utility trailers.
<b>% GRADE RATING</b>	Large tire effective single limit 15% ( 30% grade paired ) [static]
<b>STANDARDS MET</b>	SAE J348. NFPA 1906 (2002). DOT Parking Brake (paired use)
