

HWC6-WH Handled

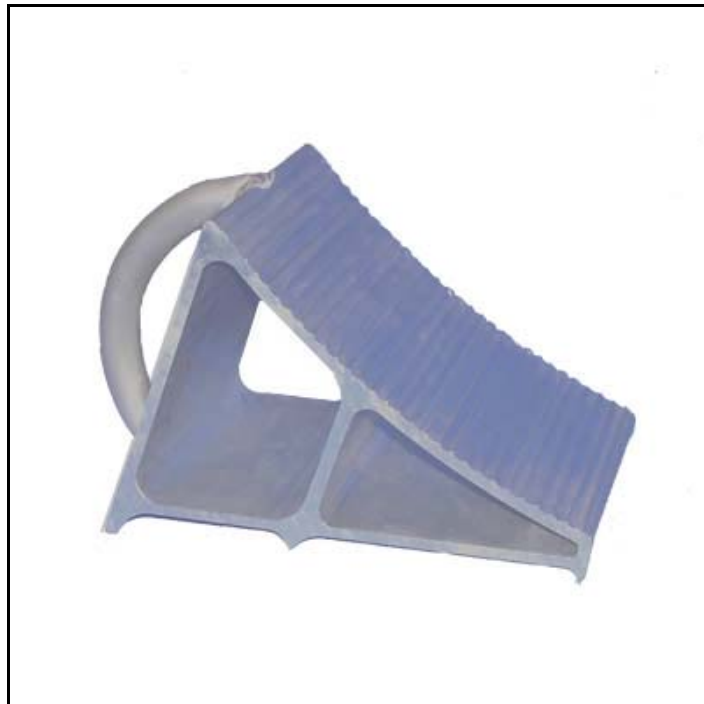

MODEL 1120305600

1906 Wheel Chock

HWC6-WH Handled Extrusion chock specifically designed for demanding off-road use. Will not harm blacktop. Non-sparking.

Solid bottom and a serrated tire contact area provide superior tire traction on all surfaces. This chock provides excellent protection under serious conditions.

- Extruded Aluminum
- SIZE: 6H x 6W x 10L
- WEIGHT: 3.7 lbs.

*HWC6-WH Featuring heavy-duty, welded grab handle.
Easy handling and soil-compression resistant.*
