

# LWG - Light Duty Aluminum

*Light Weight Gripper*

**LWG beautiful combination of design and function.** Our light Weight Gripper is the smallest cast aluminum wheel chock, but it shares all the great features of our larger chocks. Ease of handling, light weight and good looks - a great choice for trailers, cars, planes, and light trucks.

**LWG only its size is small.** Powerful capacity when used with smaller radius tires: high coefficient of friction and an unbreakable fixed shape

- Cast Aluminum
- 5"H x 6"W x 7.5"L
- WEIGHT: 1.75 lbs.

LWG - The ROLEX of non-commercial wheel chocks.
