

MWG - Medium Weight Gripper

MODEL 12202

Aluminum Wheel Chock

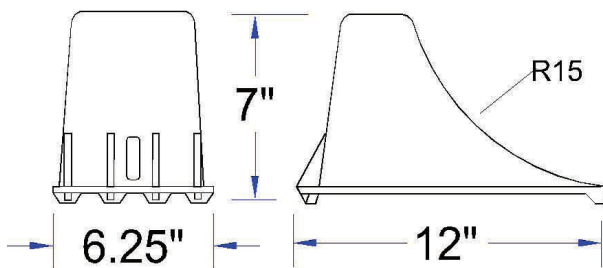

MWG stay where they're placed - Even on ice.

Teeth provides a super-high coefficient of friction to the road surface. This means excellent road adhesion even under high risk conditions.

MWG chocks are easy to use.

Hand area, plus light weight, make it perfect for repetitive placement and retrieval. Molded handle will not cut hands or tires.

- Molded Aluminum
- 7H x 6.25W x 12L
- WEIGHT: 3.3 lbs.
