

RPX Extruded Rubber Pyramid

MODEL 22105

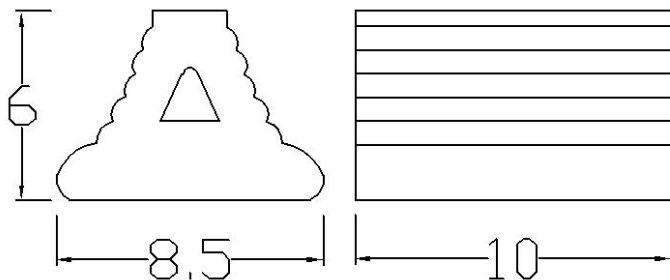

Wheel Chock

RPX is an extruded pyramid style chock with a small side-to-side pass through. A double sided chocks allows for quick placement. Pyramids are easy to store.

RPX features extremely durable (indestructible) 70 durometer SBR rubber. Also, features an eye for lanyard or chain attachment. Greatest resistance.

Always use chocks in pairs against the grade.

- Durable SBR Rubber
- 6H x 10W x 8.5L
- WEIGHT: 11.3 Lbs.
